A RARE FIND IN FREQ

It's not often that you will find a 3 Bedroom (PLUS Study), 3 Bathroom massive family home (designed with the ability to be converted to a 4 Bedroom house) as unique and appealing as this, in such a great part of Fremantle.

The original cottage was built circa 1893 with limestone blocks and brick coining. The original façade (although slightly modified and deceptively unassuming) remains. Extensions in the 1970's and then a major restoration and additions in 2012 completes the development.

Features:

- 3 Bedrooms
- 3 Bathrooms
